Data

Local Party: Colchester

Candidate Statement

It's time to make the YGs an organisation that truly represents the wider membership. I believe we need people elected that make the youth wing of our party a force for good — encouraging more people from differing backgrounds to stand that will encourage wider participation for future ECs.

I've stood as a General Election candidate in 2017 which helped to boost my experience with real life politics — challenging Tory MPs and their actions in parliament. I'm also the Campaign Manager in Colchester, where we're targetting to win and 11 votes away from winning next year. This experience will help in getting more Young Greens elected at every level. We must keep making our unique voice heard within the party and I believe I can help to make that happen.

If elected, I want to take on the role of Elections Officer to ensure there are more Young Greens in every council chamber, assembly, and parliament. I have the experience in my local area to do this, and I want to do the same at a bi-National level in the Young Greens now.
