Data

Local Party: Newham

Candidate Statement

My name is Danny Keeling and I'm with the Newham Greens as their Communications Officer. I want to give some time to the Young Greens before I turn 30, as I know the importance that Young Greens have to our party. We should have a strong voice in the party and I want to strengthen this.

Having founded and run a print publication sold in over 35 countries, I am well equipped with professional communication skills. My Experience of liaison with freelancers and staff will be very useful in providing Young Greens with an effective voice in much-needed conversations with local parties across the country.

I think it's highly important for us to sit on the Executive committee and influence the party direction. I wish to represent us as a productive and inspiring group of people with a wealth of ideas and experience.
