Resolution Text

1 Convention Believes:

- 2
- That no position of government may be acquired by right of birth.
- 3
- Members of the Royal Family must have the same fiscal obligations as other
- 4 citizens.
- 5
- Church and State being a single entity causes a conflict of interest in
- 6 both institutions. As such Church and State must be completely separated
- 7 with the Church of England becoming self-governing.
