# **Emergency Motion**

---

**Paper for...**

**Proposer:** Chandler Wilson (Nottingham Green Party)

**Title:** Cannabis law change

## **Synopsis**

The young Greens welcomes the rescheduling of Cannabis based medicine however believe more work needs doing to make sure all patients get the medicine they deserve.

## **Motion Text**

1 The Young Greens welcomes the change to allow specialist clinicians to prescribe  
2 cannabis based medicine to patients. However we call on the government to allow  
3 General practitioners to prescribe cannabis for more conditions than at current  
4 as well as the ability to prescribe more forms of Cannabis to patients so no  
5 patient is left behind. As well as giving the patients the right to grow their  
6 own.

**Proposer:** Ed Fraser (Lambeth)

**Title:** Support for the eXtinction Rebellion campaign

## Synopsis

Young Greens support the ongoing eXtinction Rebellion programme of non-violent direct action and civil disobedience in demanding immediate action on the threat of human-made climate change and ecological destruction.

## Motion Text

1 Young Greens believe that the interlinked processes of human-made climate change  
2 and ecological destruction pose the largest existential threats to our global  
3 ecosystem and society. We also recognise that current national and international  
4 efforts will be insufficient in tackling these problems and that our government  
5 must be pressured into taking radical action.

6 We, therefore, state our unequivocal support for the current eXtinction  
7 Rebellion (XR) campaign of mass civil disobedience through means of non-violent  
8 direct action (NDVA), which demands legally-binding policies to reduce net UK  
9 carbon emissions to zero by 2025 and greater international co-operation on a  
10 sustainable global economy.

**Title:** **CELEBRATING THE SUCCESS OF YOUNG GREENS ACROSS EUROPE**

---

## Synopsis

Convention notes that over 200 young greens have been elected in regional elections across Belgium, the regions of Bavaria and Hesse in Germany, and national elections in Luxembourg and Sweden. We wish to congratulate the success of Young Greens who inspire Young Greens in England and Wales

## Motion Text

1 Last weekend Young Greens were elected to the regional government in Hesse, this  
2 has followed a trend where over the last few months Young Greens from Bavaria,  
3 Walloon Flanders and across Luxembourg and Sweden have become the main  
4 progressive force for young people in Europe. These Young Greens were supported  
5 by their parent parties, given prominent positions on elected lists, setting a  
6 strong example of how main parties can assist their youth wings.

7 Convention notes the successful election of activists from Grüne Jugend, Ecolo  
8 J, Jong Groen, Déi Jonk Gréng and Grön Ungdom and congratulates them on  
9 inspiring campaigns true to our shared green values. We look forward to their  
10 continued success in next year's European election.

11 Convention asks EC to write to each of the Young Greens organisations listed  
12 above to send our warm wishes and congratulations.
